

Discerning Our Leadings:

Worshipping with Our Lives

From where do leadings arise?

What can help me determine my response to an apparent leading?

My leading seems to require more of me than I can do. How can I respond?

What support can a Meeting provide to someone following a leading?

A panel of Friends will share their personal experiences in discerning and following leadings, and then we will all join in such sharing within our small worship groups.
